 Buenos Aires, Argentina

EXPERIENCE

AI Developer

MecanTronic

 Mar 2022 – Present

 CABA

- > Migration and optimization of statistical models from Matlab to Python.
- > Computer Vision for object recognition and pattern classification in drone imagery

AI Developer

Infiniem Labs

 Feb 2022 – Present

 CABA

- > Research and development in voice processing functionalities for artificial intelligence systems.
- > Implementation of Natural Language Processing (NLP) algorithms.
- > Development of a virtual voice assistant specialized in lab microservices.
- > Deployment of the assistant in FastAPI for inference via a Telegram bot.
- > Use of Docker containers for package the assistant designed and mount it in the lab's server.

Assistant profesor: Multivariable Calculus

Universidad Nacional de Tres de Febrero

 Mar 2018 – Feb 2022

 Tres de Febrero

- > Assignment review. Theoretical and practical notes writing for students ((Available online)).

EDUCATION

Acoustic Engineer

Universidad Nacional de Tres de Febrero

 Mar 2016 – Present

 Tres de Febrero

- > Engineering's degree specialized in acoustic, NVH, electroacoustics and digital signal processing.

CERTIFICATES

Accelerated Deep Learning with GPU

@ IBM

Convolutional Neural Networks

@ Coursera

Data analysis with Python

@ freeCodeCamp

Deep Learning A-Z: Hands-On ANN in Python

@ UDEMY

Docker for the Absolute Beginner - Hands On

@ KodeKloud

ABOUT ME

I consider myself a **resolute and self-taught** person, in **constant academic training**. I am in the 5th year of my engineering degree, in which I have developed different methodologies of thinking and methodologies for problem solving in modern engineering. Currently, i'm focused on the study and application of **Machine Learning** and **Deep Learning** algorithms, especially applied to **Audio** and **Computer Vision**.

GOALS

One of my main goals is to continue deepening my experience in the world of artificial intelligence, as well as sharing knowledge with professionals in the area. I would also like to enhance my skills in **Digital Signal Processing**, since it is one of the areas that I am most passionate about.

SOFT SKILLS

Adaptability

Problem-solving

Teamwork

Creative Thinking

Listening

TECH RESOURCES

Programming languages:

 **Python:** Numpy, Matplotlib, Pandas, SciPy, TensorFlow, Keras, PyTorch, Scikit Learn, FastAPI.

 **MatLab**

Tools:

 **Docker**

 **Git & GitHub**

 **LaTeX**

Expertice:

- > Python development (4 years)
- > Machine Learning & Deep Learning (2 years)
- > Acoustic measurements (4 years)

LANGUAGES

- > **Spanish:** Native
- > **English:** Advanced (B1)
